

OFTEN COPIED / NEVER EQUALED™
SINCE 1958

Models **6040**, **6060** & **6120** can be equipped with 75 lb. ea. load rated (plug in) locking casters for easy rolling over carpets or tile. Especially designed for use in laboratories, doctors and dentist offices, in the home, or where reserve cylinders are needed. This unique design allows for easy maintenance or replacement of damaged casters. These models become the PC series.

PLUG IN CASTERS

Anthony has developed a unique cylinder protection system for its multiple cylinder carts, cylinder stands and racks. These newly designed plastic bumper guards (PATENT PENDING) help protect the surfaces of steel and aluminum cylinders from being scratched, gouged, scraped, or marred. These bumpers also eliminate the clanging noise when cylinders are in transport. **NOTE:** These retrofit bumper guards easily snap into place and **do not come off.**
