

OFTEN COPIED / NEVER EQUALED™
SINCE 1958

NEWLY DEVELOPED and much needed M4, M6 & B carts are designed for multiple cylinder transport and storage. The all-welded construction of heavy gauge materials insure greater durability and strength. Individual spacing, positive cylinder placement and weight distribution gives these units the right formula for safe handling.

MULTIPLE M2 SIZE CYLINDER CARTS AVAILABLE - CALL FOR DETAILS & PRICING.

4" RUBBER SWIVEL WITH BRAKE

WHEEL NO: W-22R
4" RUBBER RIGID

Anthony has developed a unique cylinder protection system for its multiple cylinder carts, cylinder stands and racks. These newly designed plastic bumper guards (PATENT PENDING) help protect the surfaces of steel and aluminum cylinders from being scratched, gouged, scraped, or marred. These bumpers also eliminate the clanging noise when cylinders are in transport. **NOTE:** These retrofit bumper guards easily snap into place and **do not come off.**

BUMPER GUARD KIT PART NO. - BG-60M6
